TERRITORIAL NOTES.

Items of Interest Culled From Our Exchanges.

Reports from Flagstaff, Prescott and other northern sections say that heavy falls of both rain and snow visited that section of Arizona. This will be good news for the farmers of the valley.

The November output of the Greens Cananea company was 3,658,000 pounds of copper, as compared with 3,576,000 pounds in October. Besides the copper there were 93,372 ounces of silver and 428 ounces of gold.

While riding the range 50 miles from Globe Walter Williams, Foreman of the Chiricahua Cattle Co., and well known in Cochise county was fired upon by Apache Indians whom he surprised while they were slaughtering beef. Williams returned the fire and one Indian fell. He rode to Fort Apache and surrendered.

The mill work on the Gold Crown mines is almost completed and the plant ought to be in commission within the next thirty days. With this plant running regularly the production of gold in Mohave county will be materially increased. The mine is certainly one of the great properties of the territory, having an immense tonnage of high grade milling ore opened out. Miner.

A black bear nearly eight feet in length, and weighing in the neighborhood of 300 pounds, powerful enough to kill a cow with about one blow of its paw, was placed on exhibition in front of Adams & company's store on E Congress street, Tucson. The bear was killed a short distance beyond Oracle in the Catalina mountains Tuesday by a hunter whose name is not known in Tucson.

The old Colorado river steamer Searchlight which has been in commission on the river for a good many years is again afloat. For many months the old boat has been lying in the lagoon above the Laguna dam idle and useless. The work of putting the big boat over the dam was no inconsiderable undertaking and required a great deal of care and skill, but was successfully accomplished. Yuma Sun.

The Tribble and Sarrick groups of copper mines, situated in the Mineral Creek district, the former near Ray the latter near Kelvin, are now under going development and the results are all that could be desired, according to the information given us by a party interested in them. The surface showing is first-class and so far as development work has proceeded the underground showing is still better. Capitalists would do well to investigate these properties.

Last week the Belleflower Mining company made its final payment on the purchase of the mines. The company has been at work on the property for several months and has made considerable headway with one machine drill. The shaft has been sunk to a depth of 120 feet and drifting is now under way. The ore in the mine is rich in gold, carrying some copper and lead. It is situated about six miles southwest of Kingman. H. M. Bowen has been managing the property.

Last Tuesday W. H. Woods presented to the Benson Press a winter Bartlett pear that weighs seventeen ounces. It is a perfect fruit; without a speck or sign of decay, and looks like it would keep all winter, although ripe enough to market, being a beautiful yellow color, almost like pale gold. The tree from which it came is about twenty years old, and in fine, healthy condition. It never fails to bear a good crop, worth not less than \$15 any year. The proper number of pear trees on an acre is 108, which, counting at lowest amount known for this tree to produce, would be \$1620 per year, gross returns.—Benson Press.

Oil Company for Eo vie

A dispatch from Tucson says: "Having faith in the oil prospects near Bowie, a Tucson company composed of Albert Steinfeld, J. Knox Corbett, G. A. Hoff and Gen. L. H. Manning has been formed, and the company has secured several promising claims in that district.

"The original discoverers of the alleged oil bearing sand, M. S. Freeman and H. J. Dowdell, are in the city to day, and are positive that their discovery will be of great financial value. They feel sure they have oil.

"We have secured chemicals where with any doubter can make a test of the sand and extract oil for himself, said Mr. Freeman. "We are not sinking the well deeper, but are expecting to take others in with us and drill." "Not only have Tucson people taken up claims in our immediate neighborhood, but also people from towns all the way from San Francisco to El Paso."
